

BIMXchange v4.0 Software Installation Instructions

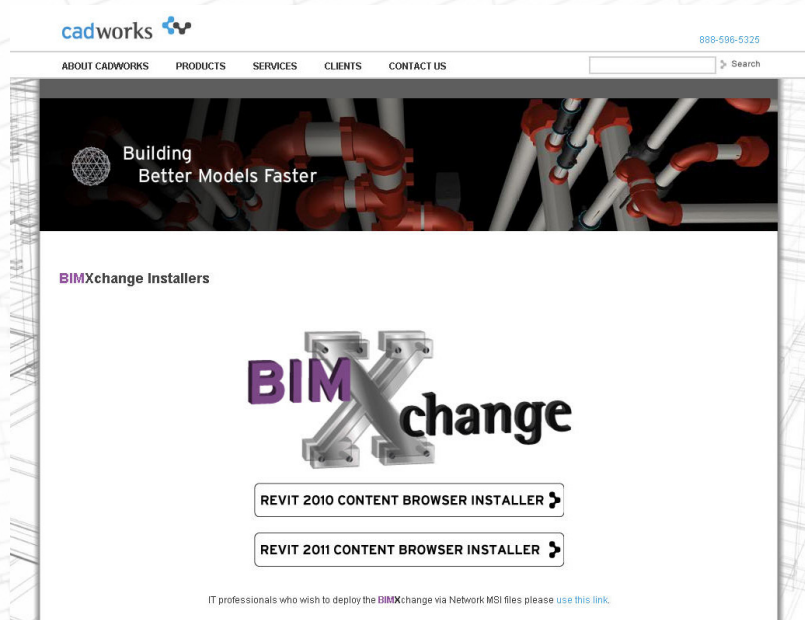

Download:

Navigate to www.cadworks.net/products/bimxchange

1. To download the BIMXchange Content Management System select the Revit Content Browser Installers button.

Note: To be able to successfully install BIMXchange v4.0 please verify that all previous versions have been removed from the computer that they wish to be installed on. If the previous versions are not uninstalled BIMXchange v4.0 will not be able to be installed correctly.

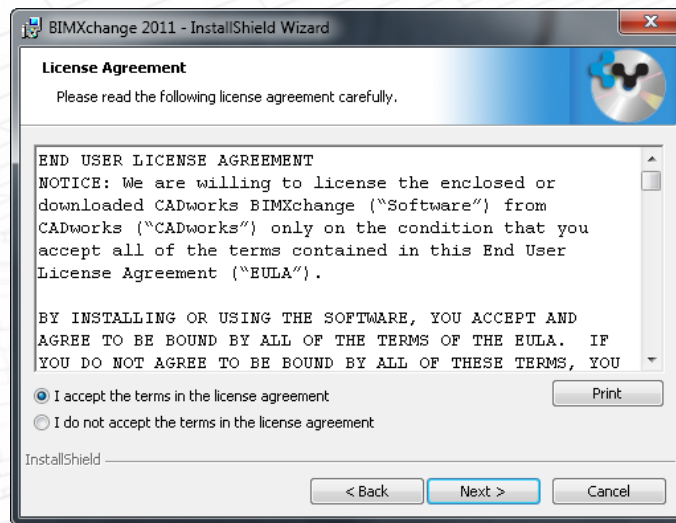

2. On the Browser Install web page select the appropriate Revit Version. Some internet browsers may block this download or flag it as a pop-up; please verify the internet browser and network download settings. Please choose either 'Save to a Location' or 'Run' the installation from the current link.
3. Once the Installer is downloaded double-click BIMXchange 2011 Setup_v4.exe or BIMXchange 2012 Setup_v4.exe to run the setup.
4. Click Next.

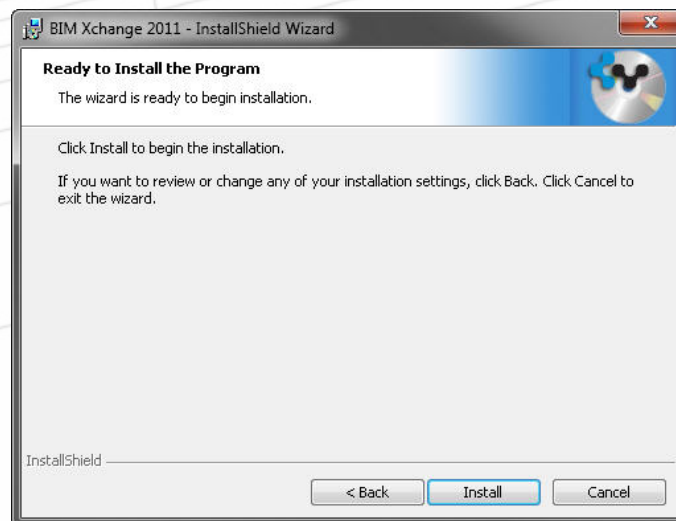

5. Read and accept the EULA, then press Next.

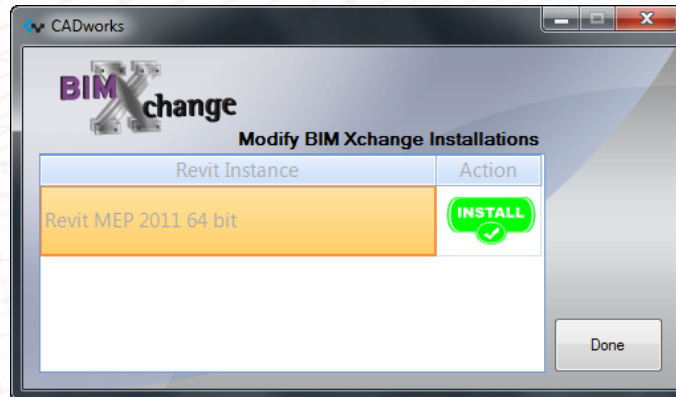

6. Click Install.

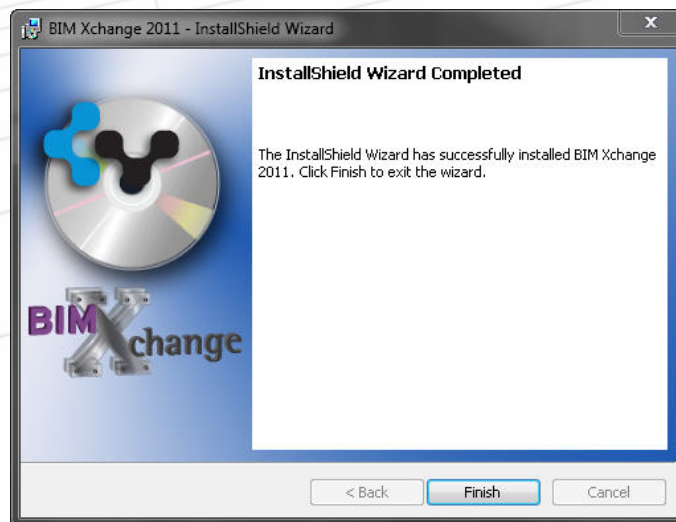

7. On the CADworks Administrator Panel select the versions of Revit you wish to install.

8. Select Done to close the CADworks Admin Panel.

9. Click Finish to complete the installation.

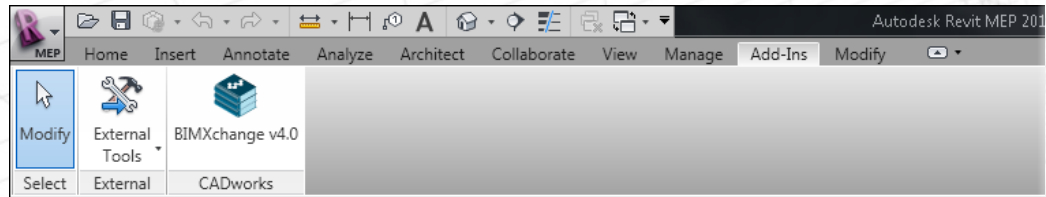

Start BIMXchange

1. Open a new or existing project in Revit.
2. Select the Add-Ins Tab on the CADworks panel and select the **BIMXchange v4.0** button. Select Need to Register?

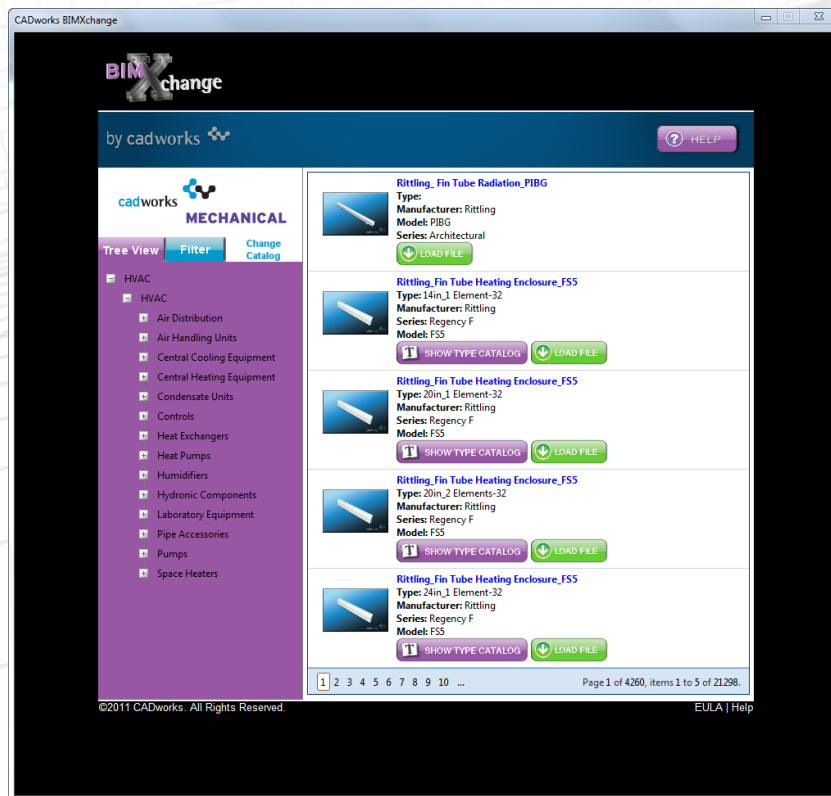

A screenshot of the BIMXchange login dialog box. It has a white background with a thin border. At the top, it says "cadworks" with a logo and "ELECTRICAL" in green. Below that, there are tabs for "Tree View" and "Filter". The main area contains two input fields: "Email:" and "Password:". Below these is a green "Login" button. At the bottom, there is a link that says "Need to Register?".

3. The BIMXchange settings window appears. Input your name (first and last), a valid email address, etc. Input the Promo Code. Then select Register. The promo code is how the BIMXchange is licensed.

A screenshot of the BIMXchange registration dialog box. It has a white background with a thin border. At the top, it says "cadworks" with a logo and "ELECTRICAL" in green. Below that, there are tabs for "Tree View" and "Filter". The main area is titled "Registration" and has a link "Back to Login" in the top right. It is divided into two columns: "Account Info" and "Personal Info". Under "Account Info", there are fields for "Email*" (with "guest@CADworks.net" entered), "Password*" (with four dots), "Confirm Password*" (with four dots), and "Promo Code:". Under "Personal Info", there are fields for "First Name*" (with "Guest" entered), "Last Name*" (with "CADworks" entered), "Phone Number:*" (with "312-895-7744" entered), and "Company:*" (with "CADworks" entered). At the bottom, there is a green "Register" button.

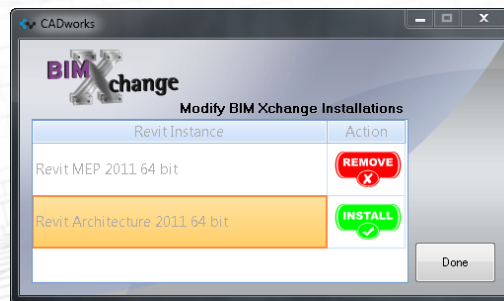

4. Inside Revit, on the CADworks panel, select **BIMXchange v4.0**. Once selected, the **BIMXchange** will launch.
5. If all directions are followed, the browser will appear similar as shown below:

BIMXchange v4.0 Software Uninstallation

CADworks Administrator Panel

1. Click Start>All Programs>CADworks>BIMXchange 2011 or 2012> Select CADworks Admin Panel. Then select the remove icon next to the Revit Instance you wish to uninstall.
2. To remove the BIMXchange completely select Remove on all available Instances.
3. To complete the uninstall process select Done, then proceed to the following steps.

Windows Control Panel

1. Click Start>Control Panel>Programs>Uninstall a program. Locate 'BIMXchange 2011 or 2012', by CADworks. The version should also read as 4.0.
2. Highlight the program by clicking once on it. Then uninstall by either right-clicking and choosing 'Uninstall' or click on the Uninstall button at the top of the page.
